

Value Adder Plus High Security

A Value Transfer Machine that is Specifically Designed to Withstand the Rigors of High Security Locations

The Value Adder Plus High Security VTM has all of the features of the Value Adder Plus, but it is specially designed to defeat the problems that come with high security risk locations. The cabinet is constructed out of 7 gauge steel that has no seams or pry points. It has dual locking points for added security with dead bolt locks. An optional high security lock guard complete with a Medeco deadbolt and Medeco hockey puck lock can be added for even greater protection. For operational security, the Value Adder Plus High Security is equipped with ESD Data-Trac card serial number tracking with up to 5,000 off-line transaction capability. It is available with front or rear access.

Front Access — 11-117-207
Rear Access — 11-117-210

Value Adder Plus High Security Benefits:

- ✓ Adds Value to Smart Cards with Cash
- ✓ Dispenses SmartCards for Cash
- ✓ User Friendly Graphics
- ✓ Bi-lingual display prompts (English and Spanish)
- ✓ Data-Trac™ Card Serial Number Tracking

UL Listed to the U.S. and Canadian Safety Standards. Prices and Specifications Are Subject to Change Without Notice.

Value Adder Plus High Security

The Value Adder Plus High Security can be mounted on a wall surface, embedded between studs, or mounted on a pedestal. The rear access VTM is shipped with two right angle brackets for attaching to the wall studs.

The Optional Pedestal Base is ESD Part Number - 70-050-200. The high security guard to cover the two Medeco locks is ESD Part Number 70-050-271. To secure the guard in place a Medeco hockey puck lock and Medeco deadbolt lock – ESD Part Number 72223 is required. While ESD believes the cabinet is designed to discourage compromise, it is the responsibility of the operator to make certain that the VTM installation is secure.

UL Listed to the U.S. and Canadian Safety Standards.
